

A BUCK FOR A BOTTLE

 Native American
Ministries

U.S. MISSIONS

A dollar still goes a long way in the right hands, and with the right purpose in mind. That is why I am asking you to give a buck for a bottle of water. Water is inexpensive, but placed in the hands of a person that is hot and thirsty, it's worth its weight in gold; and along with the water of life, God's Word, it can quench a thirsty soul.

Between pow wows, outreaches, and construction projects, we need a minimum of 10,000 bottles of water. That is a lot of H₂O! So here is the plan. Don't send water; send a dollar. Of course we won't pay a dollar for a bottle of water. For the cost of a postage stamp I can buy three bottles, so send your donations and we will be able to purchase all that we need, plus help pay for costs related to our projects. A dollar goes a long way in the hands of a missionary, make plans today to collect your water money.
